

#TogetherForCaves

Tell the story of cave/karst environment protection in your biosphere reserve and inspire the world!

CaveMAB is inviting you to inspire the world by making a short video of your biosphere reserve acting upon one of the slogans hereby listed.

I live in a biosphere reserve with caves. Keep it sustainable on the surface.

I live in a biosphere reserve with caves. This is my key to the future. / They hold the key to my future.

I live in a biosphere reserve with caves. Every drop of water is precious.

I live in a biosphere reserve with caves. I am a citizen of the world.

I live in a biosphere reserve with caves. Hidden ecosystems increase my love for biodiversity.

I live in a biosphere reserve with caves. Explore. Understand. Protect.

Together for caves and biosphere reserves. More knowledge we share, the more benefits we gain.

Together for caves and biosphere reserves. Traditional knowledge for modern solutions.

Together for caves and biosphere reserves. Natural and human sciences united.

Together for caves and biosphere reserves. Sustainable science for biological and cultural diversity.

Caves are cradles of humankind. It is my duty to research and protect them.

Caves are cradles of humankind. Be proud of them.

Caves are cradles of humankind. Cherish and respect them.

I have a caveman/cavewoman in my genes. I respect the wisdom of my ancestors.

Eight to twelve videos will be chosen to represent the diversity of approaches towards CaveMAB World Network objectives during the International Year of Caves and Karst (IYCK) and 50th MAB anniversary celebrations. Here is what we are looking for:

Get creative and use the following format to make a 60 second film (maximum, shorter videos may be accepted).

10 sec	Chose a face(s) of your biosphere reserve. Start recording with the camera by framing her/his face(s). Have them say "hello", what is his/her name, and that he/she is from your biosphere reserve in your karst region or, if not on karst, with your cave system in your country – in your local language.
20 sec	Using images and voices, share why the karst/caves in your biosphere reserve are important and how the karst and/or caves are included in the lives of local people.
25 sec	Show one key activity that demonstrates you are working on the topic of one of the above listed slogans and what impact your activity has had in the biosphere reserve.
5 sec	Frame again on the person(s) representing your biosphere reserve. Have them say the chosen and previously represented slogan in your local language while holding a sign with the slogan written in English.

Submitted videos may also be used for CaveMAB promotion and presentation after 2021. All videos that meet the requested format will be hosted on the CaveMAB website (and shared on the MaB is #ProudToShare Facebook Public group and #biospherereserveoftheday Instagram in a format of a joint 10-15 min film.

Please make sure that the sound and image quality of your video is clear and if you are going to use your phone to make the video turn it horizontally – this is an important opportunity for us to show our biosphere reserves in the best way possible. Videos that do not meet a high standard cannot be accepted.

Deadline for submissions is 31 March 2021. The CaveMAB IYCK and 50th MAB Anniversary Subcommittee will insert the provided subtitles in English for the selected videos. The subtitles should not be already included in the video. Please ensure you include the transcript of your video audio to facilitate our work. Add the English translation after each transcribed sentence in your language.

Send your video in high-resolution MPEG or mp4 format along with the registration form and signed video permission form to mariana.timo@gmail.com.

Find the Registration and Rights Agreement Form below.
